

WELO
CEILING & WALL PANELS

FREEDOM BEGINS at home

At VOX, we believe that true freedom starts at home, and the spaces we live in have a profound influence on our lives. That's why our goal is to continually innovate and provide complete solutions — ranging from decorative walls, furniture, doors and flooring collections to top-quality facade cladding and ceilings.

In 2018, the VOX brand expanded into the Indian market. Today, our presence spans over 250 cities across India, supported by a strong network of distributors, dealers, and installers. In 2023, VOX India launched its own production, reaffirming our dedication to the "Make in India" initiative.

WELO. LIKE NATURAL BUT PERFECTED

Welo panels are an excellent solution for arranging wall and ceiling spaces. Natural wood, while beautiful, has its imperfections – we associate it with the need for treatment, termites, and when used in a humid environment, it begins to emit a distinctive smell.

Welo panels are waterproof, do not require treatment, are resistant to insects, and their wood-like colors resemble real wood almost perfectly. Thanks to advanced digital printing technology (thermal printing), the panels have a matte finish and feature unique, varied patterns. They can be easily combined with other materials, such as stone, plaster, or brick. By choosing Welo you get a guarantee of quality and a reliable solution for many years.

DISCOVER A WORLD OF POSSIBILITIES

The modern slatted design of wall and ceiling panels adds elegance to interiors while visually expanding the space, creating a sense of depth and dynamism.

Welo panels are durable and long-lasting, thanks to their rich colors we can easily obtain unconventional solutions for any interior. Welo can be arranged both vertically and horizontally, so there are many arrangement possibilities.

PRODUCT FEATURES

NATURAL WOOD STRUCTURE
AND TEXTURE

TERMITE PROOF

MOISTURE PROOF

IMPACT RESISTANCE

NO PAINTING AND MAINTENANCE
REQUIRED

NON FLAMMABLE
PROPERTIES

HORIZONTAL OR VERTICAL
INDOOR INSTALLATION

CLICK SYSTEM

MODERN SOLUTIONS

SYSTEM CLICK

A simple and quick way to connect panels
on the wall and ceiling.

3D EFFECT

Light plays in the folds of the panels, creating
interesting chiaroscuro, and the joints appear
darker, which further enhances the 3D effect.

SURFACE EASY TO KEEP CLEAN

The surface is easy to keep clean thanks to the
special structure of the panel, on which dirt and
dust does not settle.
